Übergeordnetes Lernziel

The overall aim of the course is to equip students with a comprehensive overview of project financing by taking them through all stages of a project financed transaction.

Kompetenzziele

Können (instrumentale, systemische, kommunikative Kompetenz – Wissenserschließung):
 The students
 - apply a structured and systematic approach to assessing project finance transactions.
 - use qualitative and quantitative tools and measures to distinguish the key risks and interpret each of the risks to determine their severity and potential impact on the transaction structure.
 - appreciate how the mechanisms in the transaction documents operate to protect the creditors and evaluate the protection provided.

Wissen und Verstehen (Wissensverbreiterung und Wissensvertiefung – Fachkompetenz):
 The students
 - recognise the key characteristics of a robust project and identify the weakest links in the transaction.
 - build a credit rationale in order to make and substantiate investment decisions.

Lehrinhalte

Students will learn and understand the different factors that will impact project finance deals. The course will introduce the theoretical foundation, which will be applied in case studies and be supported by guest lectures.
