

Required language proofs with the internal ERASMUS application

Recommended language level:

The partner universities recommend a language level in the language of instruction. You should have this level when starting your studies abroad. You will find these language levels in the Excel table under the following link:

<https://www.hs-emden-leer.de/hochschule/organisation/einrichtungen/international-office/partnerhochschulen>

Language proofs:

The partner universities can request a language proof. Please hand in this proof together with your INTERNAL application.

If the partner university does currently not request a language proof, we nevertheless need a language proof for the internal selection of the candidates. A language course taken at Hochschule Emden/Leer with a grade in the transcript of records is in this case sufficient (then please load up the transcript of records at the place where the language proof is required) or a certificate of one of our language teachers. *

Responsibilities for language proofs at Hochschule Emden/Leer:

Students, who need a language proof from Hochschule Emden/Leer, should contact their language teacher:
